

Thanjal 11016 Staff Impression

Thanjal has a strong build with broad shoulders and well-defined muscles. His skin is a fair-to-light-olive tone, clear and smooth, with no freckles or marks. He has thick, wavy jet-black hair that he wears short on the sides and a little longer on top, styled in an effortless, slightly tousled way. His eyes are a warm, deep brown with a natural upward tilt at the outer corners. Dark, straight eyebrows sit above them, and he has noticeably long, full eyelashes. His lips are nicely full with a defined cupid's bow. There's a tiny bit of well-groomed stubble across his jaw and upper lip that gives him a masculine, approachable charm without looking scruffy.

Thanjal holds both a bachelor's and a master's degree in computer science. Calm, curious, and deeply dependable, he stays balanced through running, hiking, weightlifting, and soccer, while also enjoying cooking, mindfulness meditation, and building personal tech projects. He loves reading about business strategy and innovation, and he values discipline, empathy, and strong family bonds. In the future, he sees himself living a flexible, travel-filled life full of growth and new experiences. Thanjal decided to donate because he's seen how joyful parenthood can be and truly wants to help others build the loving families they dream of.
