

Fujian 14697 Staff Impression

Standing at 6'0" with a solid build, large bone structure, and strong masculine features, Fujian has a powerful presence. He has jet black hair, dark brown eyes, and a skin tone that is a warm, even dark tan with no freckles. His nose is straight and medium sized, with a defined but not prominent bridge, and his lips are full and well-defined, revealing straight white teeth when he smiles his broad smile. His enviably high cheekbones give his face a sculpted look. Ears are medium size, close to the head, with attached lobes. Teeth are straight and bright white, shown in a broad, genuine smile. His causal, understated style matches his down-to-earth personality.

Fujian completed college studies in Fire Science and brings an unmatched work ethic and relentlessly positive outlook to everything he does. His mechanical aptitude shines through hands-on utility work and straight-line organizational talent (he jokes he's an artist of clean angles and perfect symmetry). He stays active and fit through swimming (where he once held a youth record in the 50-meter butterfly), golf, boating, running, biking, and aerobics, while also enjoying playing violin, guitar, and drums. Organized, detail-oriented, bilingual, and self-motivated, he comes from a close traditional family that emphasized accountability, hard work, and shared meals. Looking forward to a relaxed retirement filled with golf and fishing, Fujian is a guy who quietly excels at everything he touches while staying humble and relentlessly positive.
