

Tejas 11035 Staff Impression

Tejas has a strong, well-built frame with broad shoulders, a trim waist, and muscular arms and chest that come from consistent effort in the gym. His thick, wavy dark brown hair has natural volume on top and sits shorter on the sides, framing a square face with a defined jawline and a neat beard and mustache. Warm, deep brown eyes sit under straight brows, and his straight nose leads down to a full, friendly smile that crinkles at the corners. His skin is smooth and olive-toned, even and clear. His handsome looks and energetic personality are magnetic!

Tejas stands out for his blend of intelligence, artistic ability, and athleticism. He's deep into medical studies by day, but at night he's building intricate DJ sets. In the kitchen he masterfully blends unusual flavor combinations with skill and ease, the same way he attacks an academic challenge, like the summer he knocked out a calculus course in five weeks flat. On the court he's quick and coordinated, whether it's volleyball, pickleball, or badminton, always reading moves ahead of everyone else. He can design a room around plants and spot a pattern most people would walk right past. That mix of drive and warmth traces back to his family, hardworking, kind-hearted people who lovingly shaped who he is. He wants his own family someday and sees donating as a meaningful way to help someone else build theirs.
