

Glacier 13232 Staff Impression

Glacier is tall, lean, and strong. He has a rectangular face with a square jaw that is softened by a reddish beard. His deeply set, bright blue eyes stand out sharply in contrast against his fair skin and wavy, light brown hair. His lips are of medium fullness, and they usually rest in a relaxed, friendly smile, giving him a look of subtle amusement.

Glacier grew up in a large, hands-on family where knowledge was shared through doing. From a young age, he learned how to build and fix things from the ground up, literally framing walls, laying tile, running electrical, patching drywall, and tuning engines! He has a sharp mind that handles calculus with ease and approaches problem-solving calmly. He finds time to hone his creative skills on guitar, bass, drums, and writing songs and essays. He can adapt to almost anything, stays level-headed with a dry sense of humor, and approaches health and self-improvement with consistency as lifelong projects: fresh fruit-heavy meals, regular yoga and trail time, and volunteering without making a show of it. Family sits at the center of his life; he's close with his siblings and hopes to raise kids who are strong, honest, and capable enough to fix what's broken. That same desire to help and pass on something solid and lasting is why Glacier decided to become a donor.
