

Shufen 14232 Staff Impression

Shufen is a truly kindhearted, and warm-spirited person. He is tall, with glossy black hair and deep brown eyes. His personality displays a sense of calmness that is very refreshing and he puts us at ease when speaking to him. He is intelligent and has been working in the medical device field for over a decade! His passion for the industry clearly shows and only continues to grow, as he is interested in continuing medical device research for different diagnoses, in the future. His empathy, compassion for people, and drive are evident when talking about his loved ones and engineering career with us.

Additionally, Shufen is well-rounded and enjoys many activities such as surfing, mountain biking, sailing, and martial arts. He is persistent and a go-getter! Shufen has experienced viewing life from a different lens also, as he has traveled to Taiwan, China, Hong Kong, Australia, Canada, and Mexico! We value his optimistic and relaxed demeanor, are so grateful to have Shufen in our program.
