- *Did the cancer reoccur, or did the individual get diagnosed with any other cancers? No*
- *Did the affected individual or any family members undergo any hereditary cancer genetic testing ? No*
- *Are there any other family members with a history of cancer? If so, who/what type of cancer/age of diagnosis ? No*

Was Genetic Testing Completed? No

Genetic Counselor Assessment

This donor's family history was assessed by a certified genetic counselor for patterns that may signify an increased health risk to people conceived by the donor. The family history was approved at the time of the review. The egg source's family history will also contribute to potential health risks for people conceived by the donor.

At 26 years old, the donor reports no major medical conditions in himself or any of his first-degree relatives. Family histories are a snapshot in time and are limited to what is known by the donor at the time of collection. As the donor and his relatives age, new diagnoses will likely emerge and additional risks may become apparent.

The donor reports that his maternal grandfather was diagnosed with lung cancer after 15 years of heavy smoking. There is no mention of genetic testing for hereditary cancer syndromes. There is no additional reported cancer in the donor's family. Without genetic test results, a hereditary cancer syndrome cannot be ruled out, however the donor's family history is not strongly suspicious for a hereditary cancer syndrome.

In Your Own Words...

Which words describe your personality and character?

I am very easy going and curious. I love learning about different cultures and history. I try to be an upstanding individual and always do my part. I volunteer when I can and enjoy being part and giving back to my community.

Which sports do you like to participate in?

I love to hike and run most. When I can I swim, mountain bike, fly fish, and am trying to learn beach volleyball.

Which sports did you play as a child?

I played baseball, soccer, football, swam, rowed, basketball, and tennis.

Which sports do you enjoy watching?

baseball and basketball

Do you play any musical instruments?

I play the guitar.

What is your most memorable childhood experience?

It is learning to first play baseball as a kid with my mom hitting grapefruit with my little bat from the tree in our backyard.

To which countries have you traveled?

I have been to Mexico, Ireland, Scotland, Great Britain, Cuba, Ecuador, France, Germany, Austria, Vatican City, The Netherlands, Czech Republic, Greece, Italy, Switzerland.

Describe one of your favorite vacations to another country:

My favorite was Scuba Diving in Bora Bora.

Describe a few of your strong sides:

I am very hardworking and naturally curious. I am a very compassionate and caring person who puts my whole being into all I do.

Describe a few of your weak sides:

I can let my emotions cloud my judgement when it comes to helping those close to me. I also can be too trusting of individuals I don't know well enough.

Donor Essay

Why do you want to be a donor?

As I stated previously, I think it is very important to give back and this a great way for me to give back.

Describe your relationship with your family. How has your family shaped your values and who you are today?

I am very close with my family and try to spend time with them whenever I can. I grew up in a household that always drove home the point that no one is below anyone else and so everyone should be treated with class no matter their circumstances. Additionally, the importance of the power of honesty and it is better to be truthful and wrong than telling a lie to elicit a better reaction. I grew up helping others around me and this a core part of volunteering at local dog shelters and doing trail maintenance for local hiking trails.

What makes you unique?

I try to be in nature as much as possible. No matter where I live, I always try to go out of my way to surround myself in unadulterated nature. I have lived all over the country and try to really get involved in the local nature scene. No matter where I am I truly try to make the most of where I am. I truly believe in the quote : "life happens whether you create it or not." More specifically, life is always there for us, but it is at its best when we invest our whole being into improving it.

What are you most proud of any why?

I am a deeply sensitive and emotional person. By this I mean I am very in touch with myself and who I am and want to be. Many people my age have told me they really don't know themselves or who they want to be. From an early age I was very connected to those around me and tried to be there for them no matter what. I always loved the idea of flight as well and how interesting it was to me in how it all worked. As a little kid I watched the planes at the local airport. Moreover, these days I am at the same airport doing my flight training and doing my best to live the dream I have had since a little kid of being a pilot.
