

Perrin 14664 Staff Impression

Perrin is a thoughtful, grounded, and quietly adventurous individual with a deep appreciation for the world around him. Standing 5'10" with a medium build and thick, dark brown hair. His face has an angular, masculine structure with a strong jawline that gives him a confident look. His green eyes are expressive and kind. He has classic, symmetrical features and a clean-cut, handsome appearance that looks great at any age. He's the kind of person who finds joy in both the little things, like a good book on history, and the big experiences, like hiking Half Dome at dawn with his dad or riding a train through the green hills of Switzerland.

With a degree in Criminal Justice Administration and a nearly completed teaching credential, Perrin is passionate about education and hopes to one day work with kids as a teacher. He's also a lifelong learner who believes life is too short to stay in one bubble. Whether he's sketching, hiking, or exploring new cultures and cuisines, Perrin brings patience, curiosity, and kindness to everything he does. He joined the donor program with the sincere hope of helping others experience the joy of family.
